

1 CHT4 chart lamp with electrodeless light (steel, arch type)

Custom processing: model: CHT4

Source type: incandescent light source power: 40-100 (W)

Voltage: 110V/220V (V) main scope: ship's wheelhouse chart table light

CHT4 is applied to the driving room chart illumination, steel structure, lamps, and upper and lower, left and right is free to rotate, with stepless dimmer, may need to adjust the brightness of lamp.

The 2 chart light CHT (steel, a corrugated type) CHART TABLE LIGHT

Source type: incandescent lamp voltage: 110/220 (V) type: button type switch

Material: Iron size: 250 x 100 x 150 (mm) : European style

Main applicable range: driving table and table average service life: 5000 (H) : electronic transformer transformer

Appearance: light corrugated type light source power: 40, 65, 100 (W) light color: white

CHT is applied to the driving room chart illumination, steel structure, the light can be freely rotated around, with stepless dimmer, may need to adjust the brightness of lamp.

IMPA 792120

Stainless steel materials, beautiful appearance, the company development, and place an order!

E-27,2KG, 40W-100W

3 universal lamp (steel, fixed clamp type) UNIVERSAL TABLE LIGHT

Custom processing: model: 792125 light source type: incandescent lamp

Light source power: less than 100 (W) voltage: 110/220 (V) main applicable range: chart room or desk

CHT common lamp is applied to the driving chamber and chart illumination, steel structure, lamps, and upper and lower, left and right is free to rotate, with stepless dimmer, may need to adjust the brightness of lamp.

E-27,40W-100W, 2.0KG
